You think water moves fast? [You should see ice.](#) It moves like it has a mind. Like it knows it killed the world once and got a taste for murder. [After the avalanche, it took us a week to climb out.](#)<sup>1</sup> Now, I don't know exactly [when we turned on each other](#), but I know that seven of us survived the slide... and only five made it out. [Now we took an oath, that I'm breaking now.](#) [We said we'd say it was the snow that killed the other two, but it wasn't.](#) Nature is lethal but it doesn't hold a candle to man.

The lysine contingency - it's intended to prevent the spread of the animals is case they ever got off the island. Dr. Wu inserted<sup>Green</sup> a gene [tahtthat](#)<sup>Green</sup> makes a [single](#)<sup>Green</sup> faulty enzyme in protein metabolism. The animals can't manufacture the amino acid lysine. Unless [they'recontinually](#)<sup>Green</sup> supplied with lysine by us, they'll slip into a coma and die.

Your bones don't break, mine do. **That's clear.** Your cells react to bacteria and viruses differently than mine. *You don't get sick, I do.* That's also clear. *But for some reason, you and I react the exact same way to water.* We swallow it too fast, we choke. *We get some in our lungs, we drown.* However unreal it may seem, we are connected, you and I. We're on the same curve, just on opposite ends.
